

# LinkPro™ Copper Patch Cord Portfolio

Built for classic enterprise LANs and edge rooms, LinkPro's passive copper portfolio mirrors the best-known legacy ecosystems. Everything here is vendor-agnostic and interoperable for clean, standards-based deployments.

Copper Patch Cords are copper jumpers pre-terminated on both sides.

Quickly connect to the distribution frame, greatly reducing installation time. Factory prefabricated, 100% Fluke test, guarantee product performance. Plug and play structure design, saving on-site termination time. Convenient to use the patch panel with any port capacity, easy to install, arrange and maintain. Adopt high-quality environmental protection materials and comply with REACH and RoHS requirements.

## Product Categories

- **CAT5e Shielded Patch Cords**

High-quality PC crystal head, excellent mechanical properties. Gradual integrated injection molding, solid and reliable. Crystal head shell shielding package, reliable grounding. 100% testing, quality assurance using environmentally friendly materials, in line with REACH and RoHS requirements.

- **CAT 5e Unshielded Patch Cords**

High quality PC crystal head, excellent mechanical properties. Gradient one-piece injection molding, firm and reliable, 100% testing, quality assurance. Uses environmentally friendly materials and meets REACH and RoHS requirements.

- **CAT6 Shielded Patch Cords**

High quality PC crystal head, excellent mechanical properties. Gradient one-piece injection molding, firm and reliable, Crystal head shell shielded package, reliable grounding 100% testing, quality assurance, Uses environmentally friendly materials and meets REACH and RoHS requirements.

- **CAT6 Unshielded Patch Cord**

High quality PC crystal head, excellent mechanical properties. Transparent tail sleeve, beautiful and elegant. 100% testing, quality assurance. Uses environmentally friendly materials and meets REACH and RoHS requirements.

- **CAT6A Shielded Patch Cords**

High quality PC crystal head, excellent mechanical properties. Gradient one-piece injection molding, firm and reliable. Crystal head shell shielded package, reliable grounding, 100% testing, quality assurance. Uses environmentally friendly materials and meets REACH and RoHS requirements

- **CAT6A Unshielded Patch Cord**

High quality PC crystal head, excellent mechanical properties. Gradient one-piece injection molding, firm and reliable. Crystal head shell shielded package, 100% testing, quality assurance. Uses environmentally friendly materials and meets REACH and RoHS requirements.
